

Format & Layout

Let's now format the text and add a little layout to our page:

- 1) Your **Format & Layout** assignment should contain text formatting and layout including:
 - Font face
 - Font and link colors
 - Font sizes
 - A background image and/or a background color
 - Page margins
- 2) This shall be done using PhotoShop, written in a standard text editor and printed out to be turned in as your **Format & Layout** assignment.
