

Final Project

It's time to put the fundamentals you have learned into practice:

- 1) Your **Final Project** shall be a fully functional website on the subject of your choosing with the following criteria:
 - Tables to create the foundation of your layout
 - Images that include a page header and page content images with alt attributes and appropriate format
 - A navigational menu with at least four items linking to appropriate pages
 - Headline and body text that is formatted using appropriate fonts, color and size
 - At least one set of list items
 - A contact and or survey form
 - A background image and background color
 - Should work cross-browser and across both platforms
- 2) This shall be posted to your server-space on Edison and presented in class during final's week as your **Final Project**.
